SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 12	•
Flammable liquids, Category 2	H225: Highly flammable liquid and vapor.
Eye irritation, Category 2	H319: Causes serious eye irritation.
Skin sensitization, Category 1	H317: May cause an allergic skin reaction.
Specific target organ toxicity - single ex- posure, Category 3, Central nervous system	H336: May cause drowsiness or dizziness.

2.2 Label elements

Labeling (REGULATION (EC) No 1272/2008)

Hazard pictograms	:	
Signal Word	:	Danger
Hazard Statements	:	 H225 Highly flammable liquid and vapor. H317 May cause an allergic skin reaction. H319 Causes serious eye irritation. H336 May cause drowsiness or dizziness.
Supplemental Hazard Statements	:	EUH066 Repeated exposure may cause skin dryness or cracking.
Precautionary Statements	:	Prevention:P210Keep away from heat, hot surfaces, sparks, openflames and other ignition sources. No smoking.P261Avoid breathing mist or vapors.P271Use only outdoors or in a well-ventilated area.P280Wear protective gloves/ protective clothing/ eye protection/ face protection.Response:
		 P333 + P313 If skin irritation or rash occurs: Get medical advice/ attention. Disposal: P501 Dispose of contents/ container to an approved facility in accordance with local, regional, national and international regulations.

Hazardous ingredients which must be listed on the label:

n-butyl acetate Hexamethylene-di-isocyanate, polymer aromatic polyisocyanate 4-isocyanatosulphonyltoluene m-tolylidene diisocyanate

Additional Labeling

EUH204 Contains isocyanates. May produce an allergic reaction.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

SECTION 4: First aid measures

4.1 Description of first-aid measures

General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. Move out of dangerous area. Take off contaminated clothing and shoes immediately. Wash contaminated clothing before re-use. Do not leave the victim unattended. Symptoms of poisoning may appear several hours later. Show this material safety data sheet to the doctor in attend- ance.	
Protection of first-aiders	:	First Aid responders should pay attention to self-protection and use the recommended protective clothing	
If inhaled	:	Move to fresh air. Keep patient warm and at rest. If breathing is irregular or stopped, administer artificial respira- tion. Call a physician immediately.	
In case of skin contact	:	Wash off immediately with soap and plenty of water. Call a physician if irritation develops or persists.	
In case of eye contact	:	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. If easy to do, remove contact lens, if worn. Consult a physician.	
If swallowed	:	Do NOT induce vomiting. Call a physician immediately.	

4.2 Most important symptoms and effects, both acute and delayed :

Risks

Causes serious eye irritation.

May cause an allergic skin reaction.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions	: Wear personal protective equipment.
	Evacuate personnel to safe areas.
	Ensure adequate ventilation, especially in confined areas
	Avoid contact with skin, eyes and clothing.
	In the case of vapor formation use a respirator with an ap
	proved filter.

6.2 Environmental precautions

Environmental precautions	:	Do not flush into surface water or sanitary sewer system. Local authorities should be advised if significant spillages
		cannot be contained.

6.3 Methods and material for containment and cleaning up

Sweep u After app do not se	er, universal binder, sawdust). p and shovel into suitable containers for disposal. roximately one hour, transfer to waste container and al, due to evolution of carbon dioxide. ust NOT be included in a tight way.
-----------------------------------	--

Do not flush with water.

6.4 Reference to other sections

For personal protection see section 8., For disposal considerations see section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Local/Total ventilation	:	Use only with adequate ventilation.
Advice on safe handling	:	Avoid exposure - obtain special instructions before use. All processes must be supervised by specialists or authorized personnel. Provide sufficient air exchange and/or exhaust in work rooms. Keep container closed when not in use. Wear personal protective equipment. Avoid formation of aerosol. Do not breathe vapors, aerosols. Persons allergic to isocyanates, and particularly those suffer- ing from asthma or other respiratory conditions, should not work with isocyanates.
Advice on protection against fire and explosion	:	Vapors may form explosive mixture with air. Vapors are heav- ier than air and may spread along floors. Use explosion-proof equipment. No sparking tools should be used. Take measures to prevent the build up of electrostatic charge. Keep away

SECTION 4: First aid measures

4.1 Description of first-aid measures

General advice	:	In the case of accident or if you feel unwell, seek medical ad- vice immediately. Move out of dangerous area. Take off contaminated clothing and shoes immediately. Do not leave the victim unattended. Symptoms of poisoning may appear several hours later. Show this material safety data sheet to the doctor in attend- ance.
Protection of first-aiders	:	First Aid responders should pay attention to self-protection and use the recommended protective clothing
If inhaled	:	Move to fresh air. Keep patient warm and at rest. If breathing is irregular or stopped, administer artificial respira- tion. Call a physician immediately.
In case of skin contact	:	Wash off immediately with soap and plenty of water. Call a physician if irritation develops or persists.
In case of eye contact	:	Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Keep eye wide open while rinsing. If easy to do, remove contact lens, if worn. Consult a physician.
If swallowed	:	Do NOT induce vomiting. Call a physician immediately.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Remove all sources of ignit Do not smoke. Avoid contact with skin, eye	
--	--

6.2 Environmental precautions

Environmental precautions :	Prevent spreading over a wide area (e.g., by containment or oil barriers). Do not flush into surface water or sanitary sewer system. Local authorities should be advised if significant spillages cannot be contained.
-----------------------------	--

6.3 Methods and material for containment and cleaning up

Methods for cleaning up : Soak up with inert absorbent material (e.g. sand, s acid binder, universal binder, sawdust). Keep in suitable, closed containers for disposal. Do not flush with water.	
--	--

6.4 Reference to other sections

For personal protection see section 8., For disposal considerations see section 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Advice on safe handling	:	Keep container closed when not in use. Provide sufficient air exchange and/or exhaust in work rooms. Wear personal protective equipment.
		Solvent vapors are heavier than air and may spread along floors.
Advice on protection against fire and explosion	:	Vapors may form explosive mixtures with air. Keep away from open flames, hot surfaces and sources of ignition. Do not smoke. Take measures to prevent the build up of electrostatic charge. Use explosion-proof equipment.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers	:	Store in original container. Keep containers tightly closed in a dry, cool and well-ventilated place.
Further information on stor-	:	Keep away from heat and sources of ignition. Protect from
